

## Orange County Suggested Project Opportunities

Location	Project Title	Description
Cornwall	Moodna Creek Marsh Protection & Enhancement	Increase/ enhance recreation opportunities
Cornwall	Moodna Creek Marsh Protection & Enhancement	Protect Moodna Creek Marsh from storm damage and flooding
Cornwall	Moodna Creek Marsh Protection & Enhancement	Stabilize Moodna Creek Marsh
Cornwall	Recreation Access Expansion	Expansion of recreation activities and possible access
Cornwall	Shoreline Stabilization	Shoreline stabilization
Cornwall	Waterfront Protection	Repair buffer to protect river from commercial rail contaminants
Cornwall	Floodplains Protection	Floodplains protection
Cornwall	Waterfront Protection	Protect adjacent communities from potential risks associated with hazardous material transport
Cornwall	Vulnerability Reduction of Wastewater	Address vulnerability of wastewater

	Treatment Plant	treatment plant to flooding due to sea level rise
Cornwall	Vulnerability Reduction of DPW Site	Address vulnerability of DPW site to flooding due to sea level rise
Newburgh	Quassaick Creek Recreation	Trailhead for urban linear trail from mouth of Quassaick Creek up the Quassaick into City of Newburgh
Newburgh	Boat Launch	Existing boat launch with steel bulkhead. Provides river access, area could be an area for shoreline softening.
Newburgh	South St. Park	Paving, dock, landscaping, tie-in to existing walk along shoreline
Newburgh	Consolidated Iron	Brownfield site cleaned up and available for public access
Newburgh	Newburgh Landing	Reconstruction of Newburgh Landing for public access and for docking of large ships and possible relocation of Metro-North ferry
Newburgh	Fishing Pier	Repair to winter dock damage. Fixed structure, pilings to be replaced. Adjacent to shoreline access to current ferry landing, potential easement for public access
Newburgh	Rowing Club	Sewage treatment plant site would expand, necessity to reclaim rowing club property and restructure/redesign buildings for sea

*Please note: Inclusion of a project on the county list is not an indication that the project has been fully reviewed for meeting selection criteria, nor is it a guarantee that it will be included in the Hudson River Comprehensive Restoration Plan.*

		level rise
Newburgh	Public Access/Recreation Plan	Comprehensive 'connecting the dots' of disparate public access point and parks along the waterfront through public properties
Newburgh	Quassaick Creek	Fish/eel passage/ ladder or dam modification for step 1 to restore fish migration. Quassaick Creek trail and park at old factory
Newburgh	Consolidated Iron	Brownfield site cleaned up and available for shoreline softening, habitat restoration
Newburgh	Sewage Treatment	Wastewater treatment plant could be impacted from sea level rise, could affect City and Town residents. Shoreline could be softened
Newburgh	Consolidated Iron	Brownfield site cleaned up and available for redevelopment, open/green space protection
Newburgh	CSX Rail Road Bridges	CSX bridges vulnerable to sea level rise, with transport of crude oil there could be catastrophic impacts ecologically

*Please note: Inclusion of a project on the county list is not an indication that the project has been fully reviewed for meeting selection criteria, nor is it a guarantee that it will be included in the Hudson River Comprehensive Restoration Plan.*
